To Whom It May Concern:

We are listeners of K-LOVE radio station (FM 94.3 in the Chicago area) and very much would like to see this radio station continue in its current format. We are benefited not only by the music, but also the other programming, news and local information K-LOVE provides for us. We are concerned that K-LOVE could be replaced by an LPFM broadcaster and would like to register our request for this not to happen.

There are very few options for family friendly programming in our area, and we would be extremely discouraged and disappointed if K-LOVE were to cease to be available in our area.

Thank you for your consideration,

Patrick and Christina Kenkel
